

What past students are saying...

2 Days
Full-time Course

Kim:

As a wonderfully thoughtful gesture, my partner gave me the Suzan Johnston Course as a gift. The course was a much needed confidence booster and really helped me to improve my speech and interpersonal communication skills.

Eve:

I was wanting a career change but needed more confidence and motivation to 'make it happen'. Suzan Johnston gave me the boost that I was looking for! The trainers were inspirational; giving me the knowledge, confidence and motivation to achieve success both within my career and other facets of my life – thank you.

Belinda:

Growing up, I was a tomboy with little interest in makeup or dressing-up etc. This continued into adulthood – where my focus became my studies and my career as a doctor. I really had no idea about make up, hair styling, dressing appropriately etc. The course at Suzan Johnston has helped me (at last) to express my femininity and appreciate that taking some simple steps regularly can make a world of difference to the total package – ME!
